

Introducing the World's First Long Ear Boot (LEB)

Cavallo **LEB** LONG EAR BOOT®

Designed Exclusively for Donkeys
Ride Anywhere. At Any Speed.
In Cavallo Comfort.

Revolutionary Innovation

It's time to accommodate donkeys, too.

Their hooves are not just smaller horse hooves — they're longer, narrower, higher and deserve equipment designed just for them. The LEB (Long Ear Boot) is the first-ever hoof boot engineered specifically for donkeys — not modified, not compromised.

Developed alongside top veterinarians, trimmers, and hoof care educators, the LEB delivers comfort, protection, and real performance — finally giving donkeys the fit they deserve.

After a fresh trim measure for correct size LEB

1. Measure hoof **LENGTH** from toe to very back of the frog- refer image.

2. Measure hoof **WIDTH** across widest part of the hoof.

3. Metric (MM) is most precise measurement.

Sold in Pairs, in Black & Turquoise

- Donkey-specific fit – no inserts or shims required
- Simple front fastening – industrial-grade Velcro® closures
- Quick on/off design – easy application, secure fit
- Moulded-in back flap – protects bulbs and prevents rubbing
- Soft foam-filled leather collar – gentle on the pastern
- 680 Denier industrial-grade nylon upper – tough and durable
- Waterproof stitching & rustproof metal hardware
